Aviv Kinberg, Tayler Carney, Dongheon Yang, Duncan Everson, and Morgan McClain

ORIGINAL PROBLEM

Symptoms

- Low attendance
- Weak engagement
- Leadership turnover

Impact

- Loss of continuity
- Unclear direction
- Reduced member investment

INITIAL FRAMING

Our Initial Assumptions

- Leaders were disengaged
- Members lacked motivation
- Senior burnout was the primary cause

Early Framing

“The club is struggling because leadership is no longer fully invested.”

PROBLEM CONSTRUCTION & REFRAMING

Initial Framing

Motivation Problem

Reframed Understanding

Coordination

Unclear systems and inefficient handoffs

Communication

Inconsistent and disconnected communication

Structure & Incentives

Leadership structure and incentives not aligned

Accountability

Lack of ownership and follow-through

Identity & Culture

Weak shared identity and purpose

We initially believed the core issue was a lack of motivation and investment.

IDEA GENERATION

Techniques We Used:

- Brainstorming
- 5 Why's
- Stakeholder Mapping
- Idea Marketplace
- Analogical Thinking

Ideas We Generated:

- Reward systems
- Leadership transparency checks
- Consequence systems
- Revised mission statement
- Communication reforms
- Task management systems

Important Process Insight:

“We intentionally separated idea generation from evaluation to encourage creativity and avoid early bias.”

IDEA EVALUATION & SELECTION

OBFC BUY-IN

James

- Hii officers 🙋
- Looking at scheduling a ADR/VO set for both blue portrait and the documentary, hopefully we can do those at the same time?
- Someone needs to print the bingo sheets
- Who should I meet with?

Aviv

- Documentary final shoot went great
- Now its onto editing nightmare, We're almost to a rough cut

THE TEST

Our plan was to pitch the creation of the task tracking system to the OBFC leadership (both current and incoming) at their club meeting.

RESULTS

All 7 of the incoming leaders felt it would improve their coordination.

Qualitative Feedback:

- They valued the increased accountability amongst leadership.
- They expressed the desire to implement more substantial use of the checklist system to make subtask for the tasks.
- They wanted the build to look more aesthetic

TEAMWORK: A 7 C'S DIAGNOSIS SECTION

TEAM DIAGNOSIS ACROSS THE 7 C'S

Strengths

Capability, Cooperation,
Conditions, Cognition

Weaknesses

Coaching, Coordination

Both Sides

Communication

OUR STRENGTHS

Capability

- Right mix of skills, members led where they were strongest

Cooperation + Conditions

- Individuals are pulling their weight, trust is there, and safety to speak up (Psychological Safety)

Cognition

- Aligned on the same problem for most of the project

OUR WEAKNESSES

What We Assumed:

- Team Member Absences felt minor
- We were still making progress

What We Realized:

- The shared mental model broke down
- Not everyone had the same picture of the problem

Like how an iceberg has two sides:
what is visible vs. hidden below

INITIAL ASSUMPTION

We thought it was coordination, in reality, it was coaching.

First Diagnosis:

- Stakeholder outreach fell to one person
- It appeared like a coordination gap

Real Diagnosis:

- No one held a facilitation role
- No one to catch the issue before it became a problem

IF WE CONTINUED

What We Would Change:

- Map tasks to strengths early, don't wait for problems
- Treat absences as a cognition risk, not just a scheduling issue
- Saturday noon check-in and rotating coordinator role
- Full team at every club meeting
- A shared filing system that is better organized
